

FOREIGN NEWS!

San Francisco, October 11th, per S. S. Australia.

AMERICAN.

Denis Kearney was arranging to inflict lectures on New York.

John B. Finch, thimpenance advocate and head of the Good Templars, is dead.

The terrible disease known as black small-pox is raging in parts of Mexico and has crossed into Arizona.

Baltimore has a scandal in a petition for divorce from his wife by Harry J. Bottomer, a young merchant who married an incorrigible flirt. Nearly a score of citizens mixed up in the affair are having their love letters to the erratic wife read in court and published.

Rich finds of magnetic iron, marble, limestone and silver were made on the west slope of the Cascade Mountains, Washington Territory, in August last. The discoveries were not made public until recently, when experts who went to investigate them reported that the half had not been told.

Cardinal Gibbons invested Archbishop Gross with the sacred pallium at Portland, Oregon, on the 9th, with all the pomp and brilliancy of the Roman Catholic ceremonial. Among the audience was the Governor of the State, Judges of the Supreme Court, the Judge of the United States Court, United States Senator and many very prominent citizens of Portland.

Inspector Byrnes of New York a year or two ago met Chris. Buckley, the blind politician whose rascality is causing threats of summary popular vengeance in San Francisco, when the boss was in New York on his way to Europe. The Inspector warned Buckley at that time that if he made associates and friends of men who outraged the laws and who made crime their great purpose in life, he would suffer for it just as sure as fate.

Miss Emma Abbott spoke out in meeting at Nashville, Tenn., on a recent Sunday, making a short speech of protest against Pastor Chandler's arraignment of the theatre in the leading Methodist Episcopal church of the city. There was considerable applause at the conclusion of her remarks. The episode caused a great sensation. Several ladies who had met Miss Abbott socially called on her and commended her spirited defense of herself and her profession.

A fire that started on ex-Congressman Luttrell's ranch, Sonoma county, Cal., on Oct. 8 was reported at latest date to have become fierce and uncontrollable. It had traveled over a large area of country and destroyed timber, vineyards, fencing and dwelling houses in its march. Henry Mulz, on old resident of Santa Rosa, died from heat while fighting the fire. Destructive fires are also reported in Napa and Alameda counties, which have ravaged large tracts of valuable property. The weather was oppressively warm.

President Cleveland and wife are in the West. They met with a fine reception in St. Paul on the 10th, where the President in a speech referred to the fact that his wife had gone to school in that city. He also adverted to the marvellous growth of the city, stating that when Mr. Seward was there in 1860 the population of Minnesota was 172,000 and of the city of St. Paul 10,000, while now at the lapse of twenty-seven years the State contained nearly a million and a half of people and its capital had a population nearly as great as that of the State in 1860.

EUROPEAN.

Jenny Lind is reported in a hopeless condition, although she may survive for weeks.

General Caffierat and a number of accomplices are under arrest in France for selling civil decorations.

The Bulgarian elections took place on the 10th and were orderly. Soldiers patrolled the streets of Sofia and guarded the public buildings.

October 10, for the first time since the revolution of 1793, the religious ceremonies connected with the festival of St. Denis were suppressed.

Maurice Strakosch, the famous impresario, is dead. He was a Moravian by birth and married Amelia, sister of Adelina Patti, in America.

Mlle. Aimee, the singer, died from the effects of a surgical operation in Paris on the 3d inst. She was well known on the Pacific Coast and throughout America, having been regarded as the queen of opera bouffe when that was a popular form of entertainment.

The latest reports from Tabalach regarding the Prince Imperial of Germany are very disquieting. There is no doubt that the cancerous growth, temporarily destroyed by the severe cauterization of Dr. Mackenzie, has reappeared with greater violence. The Prince cannot stand another severe operation, and all that is being done for him is to relieve the pain.

A Berlin dispatch of Oct. 10 says that the alliance of Italy, Germany and Austria has been renewed for five years, Italy reserving the right of maintaining neutrality in the event of a Franco-German war. From London the statement comes on the same date that the Russian official organs are striving hard to minimize the effect of the new European combination. The popular opinion in Russia is vehemently excited and demands a formal Russo-German alliance. Russia's position is made more difficult

by Turkey's refusal to entertain her proposals for the settlement of the Bulgarian question. A Turkish note was expected on the 11th.

The new Spanish deck-protected cruiser, Reina Regente, built on the Clyde, has on test developed a speed of nineteen knots, or more than twenty one and a half miles an hour. Under forced draught she will steam twenty and one-half knots, or twenty-three miles and a third. This is a speed of which not even the best of great ocean-liners is capable. It is sufficient to enable the new vessel to cross the Atlantic from New York to Queenstown in about five days five hours. Neither the Etruria nor the Umbria would accomplish the same voyage in less than five days and twenty-one hours, and yet these ships are the fastest merchant steamers in existence. Spain is now building four more cruisers of unusual power.

An immense meeting was held in the roundroom, Dublin, October 10, to protest against the prosecutions directed by the Government against the press. Thomas Sexton, M. P., presided, and several English journalists were present. A resolution was carried with great enthusiasm declaring that the struggle for the freedom of the press must be continued. The Coercion Act is said to be a failure, and the Government is called upon by the Dublin *Express* either to enforce or repeal the measure. A large meeting was held under the auspices of the National League, October 9th, at the confluence of the Suir and Barrow rivers. The police were completely outwitted, having no knowledge what ever of the meeting.

At a large open-air meeting of socialists on Market square, Northampton, on Sunday morning, October 9, on motion of the Chairman, it was decided unanimously to make a public demonstration on the occasion of Prince Albert Victor's visit to town the next week to lay the foundation-stone of the jubilee enlargements at the Northampton General Infirmary. It was determined to have a procession of socialists headed by a band, which should play the dead march in "Saul." The meeting subscribed for a large black flag it was resolved to procure, with the following inscription: "Put not your trust in princes." The Chairman said it was an insult to the people of Northampton to bring down a striping like the Prince, and he warned those making arrangements for his visit to tell Prince Albert Victor, even now, not to come. The visit, he declared, would be a historic one, and probably it would be the last time that a Prince in England would leave his home.

MISCELLANEOUS.

It is stated at Baden Baden that the Emperor of Brazil has announced his intention of abdicating the throne, owing to his health being impaired.

Dhuleep Singh has written a letter to the native papers of India, in which he says England has offered him \$250,000 in settlement of his claim against the Government on condition that he would not go to India. He rejected the offer. His arrest at Aden, he says, converted his loyalty to bitter hatred of England, and he has solemnly resolved to devote his life to freeing his country from the British yoke. He declares that he will serve his new sovereign, the Czar, with his life's blood. It is expected that the letter will induce the journals published in the Indian vernacular to make a combined attack on British rule.

The New York *Tribune's* Montreal special of October 7th says: Sir George Stephen, President of the Canadian Pacific Railroad, will leave Montreal for England in November to arrange for the building of three powerful steamers to run on the Pacific ocean between Vancouver, China and Japan. The steamers will be of about 4,000 tons burden. It is believed that they will be laid down on the same plans as the new White Star steamers and be propelled by twin screws. A prominent official said to-day: "I think that before long we will be in a position to guarantee a twenty-four days' journey from London to Yokohama."

DR. J. COLLIS BROWNE'S
CHLORODYNE

THE ORIGINAL AND ONLY GENUINE.

Advice to Invalids.—If you wish to obtain
quiet refreshing sleep, free from headache,
relief from pain and anguish, to calm and assuage
the weary aching of protracted disease, to
vitalize the nervous media, and regulate the
circulating systems of the body, you will
provide yourself with that marvellous remedy dis-
covered by Dr. J. Collis Browne, Chief Army
Medical Staff, to which he gave the name of
CHLORODYNE, and which is admitted by the
profession to be the most wonderful and valuable
remedy ever discovered.

CHLORODYNE is the best remedy known for
Coughs, Consumption, Bronchitis, Asthma,
Cholera, and is the only specific in Cholera and
Dysentery.

CHLORODYNE effectually cuts short all at-
tacks of Epilepsy, Hysteria, Palpitation, and
Spasms.

CHLORODYNE is the only palliative in Neu-
ralgia, Rheumatism, Gout, Cancer, Toothache,
Meningitis, &c.

From Sykes & Co., Pharmaceutical Chem-
ists, Medical Hall, Simla, January 5, 1880. To
J. T. Davenport, Esq., 21, Great Russell Street,
Bloomsbury, London. Dear Sir,—We embrace
this opportunity to congratulate you upon the
wide-spread reputation this justly esteemed
medicine, Dr. J. Collis Browne's Chlorodyne,
has earned for itself, not only in Hindoostan,
but all over the East. As a remedy for general
affliction, we must question whether a better is
imported into the country, and we shall be glad
to hear of its finding a place in every Anglo-
Indian home. The other business we are sorry
to say, are now relegated to the native bazaar,
and, judging from their sale, we fancy their
rejoinder there will be but evanescent. We
could multiply instances of the infatuation of the ex-
traordinary efficacy of Dr. Collis Browne's Chloro-
dyne in Diarrhoea and Dysentery, Spasms,
Cramps, Neuralgia, the Vomiting of Pregnancy,
and as a general sedative, that have occurred
under our personal observation during many
years. In Choleraic Diarrhoea, and even in the
more terrible forms of Cholera, Chlorodyne has
witnessed its unsurpassing controlling power.

We have never used any other form of this
medicine than Collis Browne's from a firm
conviction that it is decidedly the best, and a
sensible of duty we owe to the profession
and the public, as we are of opinion that the
substitution of any other than Collis Browne's
is a dangerous mistake.

THE CHEMIST TO PHARMACEUTS AND PATENT
ALIKE. We are, Sir, faithfully yours, SYKES &
Co., Members of the Pharm. Society of Great
Britain. His Excellency the Viceroy's Chem-
ists.

CAUTION.—Vice-Chancellor Sir W. Page
Wood stated that Dr. J. Collis Browne was
undoubtedly the inventor of Chlorodyne; that
the story of the defendant Freeman was de-
liberately untrue, which he requested to say,
had been sworn to.—See "The Times," July 13,
1864.

Sold in bottles at 1s. 3d., 2s. 6d., 4s. 6d.,
and 10s. each. None is genuine without the
words "Dr. J. Collis Browne's Chlorodyne" on
the Government stamp. Overwhelming medi-
cal testimony accompanies each bottle.

Caution.—Beware of Piracy and Imitations.
Sole Manufacturer—J. T. DAVENPORT, 23
Great Russell Street, Bloomsbury, London.
